### **HOMESCHOOL ENRICHMENT PROGRAM EXPANDS TO CONIFER**

The Summit Academy South opens a new location in Conifer, CO

CONIFER, CO — The Summit Academy South, a homeschool enrichment program of Jefferson Academy Charter School (Broomfield, CO), will be opening a new location in Conifer, CO at Conifer Community Church, 9998 Havekost Road. The program will open for K-12 students on August 26, 2021 and will meet each Thursday during the 2021-2022 school year.

Summit Academy South, currently in Littleton and opening in Conifer, is an expansion of The Summit Academy in Westminster. These programs are in place with the purpose of working alongside homeschool families to offer quality classes that will enrich what families offer at home, while also providing opportunities for students to develop deep friendships and build community. Summit South principal Allycia Taussig states that "each child is a unique individual, and with that comes unique needs. We provide different learning paths and choices to fit each individual."

The Summit Academy began in 2004 with a science class of 14 students learning in a basement. Summit was part of the Aurora Public Schools Options program until 2013, when it became part of Jefferson Academy Charter School. With a new location in Conifer and the Westminster location expanding its capacity, The Summit Academy now serves over 900 homeschool students and their families in three locations. For more information about The Summit Academy South, please contact principal Allycia Taussig, [ataussig@jeffcoschools.us](mailto:ataussig@jeffcoschools.us), or visit [www.thesummitacademysouth.org](http://www.thesummitacademysouth.org).
